

## Careers Programme Calendar 2023/2024

- We **Inspire** students to make their own career decisions and choices
- We **Challenge** students to identify their skills and strengths, by taking part in careers activities and embedding careers into the curriculum.
- We **Support** all students through offering impartial CEIAG and meeting their needs, supporting with work experience and meeting employers and higher education providers.

**Our vision is that all students will secure a positive progression pathway after completing their studies with us.**

The College measures the impact of its careers programme using a range of methods including leavers' destinations, progression data and student survey results. Priestley College is a Matrix™ accredited organisation. To maintain accreditation the College is periodically self-assessed and externally assessed against the Matrix Standard™ criteria, including an assessment of the processes used to support the delivery of Information, Advice and Guidance as well as the results achieved.

The Careers Lead is Mark Eccleston- Assistant Principal
